Hi [REDACTED],

Hope you're well.

As requested, please see some information re. Verkada's Law Enforcement security solutions that the Account Manager has sent across:

<https://www.verkada.com/solutions/law-enforcement/>

I've linked below the user guide for people analytics, but wanted to also highlight some key ways these AI search functions can be used;

- People of interest alerts (active alerts for prolific offenders/repeat offenders)
- Attribute and large language search (search simply with a description '*man in red cap with a backpack*')
- Live alerts for loitering and crowding (can be used for anti social behaviour, but also business analytics such as queues forming and people waiting to be served)
- Occupancy trends built into the platform for people counting
- People tracking (organisation wide)
- Motion alerting

<https://docs.verkada.com/docs/people-analytics-guide.pdf>

We also have License plate recognition functionality built into the cameras;

- License plate search (even with just a couple of letters of the reg)
- Identify regularly seen license plates
- Alerting of license plates of interest across all sites
- Descriptive search (e.g show me a red fiat 500)

<https://www.verkada.com/uk/security-cameras/license-plate-recognition/>

All of the above;

- Out of the box technology (no charge per feature)
- Centrally monitored for unlimited users (from laptop or phone fully remote)
- Unlimited Users
- 10 year warranty
- 24/6 365 in platform support for unlimited users (30 second response rate)
- Automatic Firmware Updates (new features automatically added to the platform as they are released at no extra charge)

Thank you.

Kind regards,

[REDACTED]

Hi [REDACTED],

I'm very well thank you – I hope you are too!

I've contacted the supplier to ask if they have any generic documentation that could be shared with you – I'll send it over as soon as they respond. When is your meeting scheduled for?

We have another demo on the 19th of May (11:00-12:00), if some of your SLT would like to attend then?

Thank you.

Kind regards,

[REDACTED]

Hi [REDACTED]

I hope you are well

I have a meeting with some of the police senior lesders coming up and they are keen to understand the soon to be rolled out CCTV for the Meadow Well

Is there a presentation or overview of the new systems capability you are able to share with me?

It will be for police info only NOT shared outside of a police only meeting

Thanks
